

DEEP DIVE

OPEN-SOURCE INVESTIGATION PACKAGE

Once considered the dark arts of politics, opposition research has now found its ways into the mainstream to protect companies and associations from the unknown. **We focus on people.**

Have they told you the whole truth? Our goal is to help you make the right decisions on whether to purchase, partner, or work with the companies or people you're interested in.

WE FOCUS ON PEOPLE

WHAT WE DO?

We focus on every aspect of an individual so no stone is left unturned. In a team of four to five researchers, we work through a tried and tested check list.

Social Media • Current + Archival Media • Criminal Charges + Court Records • Education + Experience Verification

Each individual brings its own type of dive. Our methods are always adapting and evolving to best suit individual deep dives.

WHY A DEEP DIVE?

With more information being put online every day, we continue to see stories about high-profile individuals who've lied or weren't upfront about their past. In Ontario, during the last provincial election the Ontario NDP has numerous candidates with statements and social posts that were racist, inappropriate, and career ending.

Thorough research could have alerted these organizations before it was too late.
